(Lunch, Snacks & Refreshments included)

Today is the day that makes this entire journey truly extraordinary — and one that you will remember for the rest of your life. An early morning departure from Hurghada takes you westward through the Eastern Desert to Luxor, arriving in time to take your position for the Total Solar Eclipse viewing. At 2 August 2027, the moon's shadow will sweep across the Luxor region in one of the most dramatic and awe-inspiring natural events visible from Earth — as the sky darkens, the temperature drops, the stars appear in the middle of the day, and the solar corona blazes around the edge of the moon in a sight of such otherworldly beauty that even the most seasoned eclipse chasers describe it as genuinely life-changing. To witness this phenomenon from the banks of the Nile, surrounded by three thousand years of ancient Egyptian civilisation, is an experience available nowhere else on earth and at no other moment in a generation. Lunch, snacks, and refreshments are included throughout the day. The afternoon brings visits to the Valley of the Kings — where the painted royal tombs of Egypt's greatest pharaohs have endured three thousand years underground — and the graceful Luxor Temple, glowing in the golden afternoon light beside the Nile. Your vehicle returns you to Hurghada as the extraordinary day draws to its close. Overnight in Hurghada.
